

Here and there my code stops here. Not always, but even if the link is visible, it hangs.

On line 211

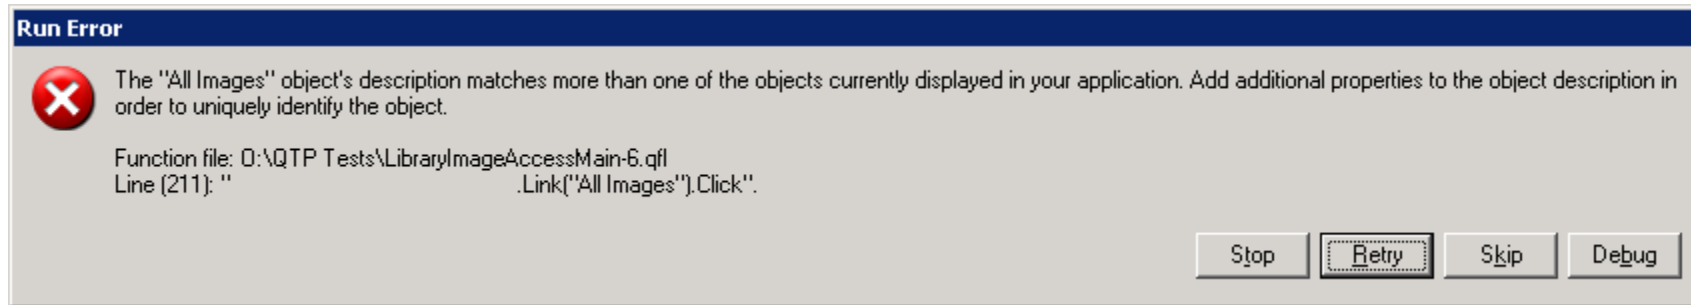

The screenshot shows the QuickTest Professional interface. The main editor displays a QTP script with a 'Run Error' dialog box overlaid on it. The error message states: "The 'All Images' object's description matches more than one of the objects currently displayed in your application. Add additional properties to the object description in order to uniquely identify the object." The error occurred in the function file 'D:\QTP Tests\LibraryImageAccessMain-6.qfl' at line 211, specifically at the command '.Link("All Images").Click;'. The script code includes a 'Public Function ChangeAcctNumber ()' which attempts to click a link labeled 'All Images' on a page titled 'WisdomLogin'. Below the script, a 'Data Table' is visible, containing test data for iterations 1 through 11. The table has columns for IterationCount, ENV, URL, TYPE, UserID, Password, ACCT1, ACCT2, and various object identifiers (I-N).

```
194: End Function
195:
196:
197:
198: Public Function ChangeAcctNumber ()
199:
200: If Browser("Wisdom").Page("WisdomLogin").Image("Wisdom").Exist(1) Then
201:     Browser("Wisdom").Page("WisdomLogin").Link("All Images").Click
202: End If
203:
204: With Browser("Wisdom").Page("Wisdom Main")
205:     WebEdit("Account").Set DataTable("ACCT1", dtGlobalSheet)
206:     'WebEdit("Account").Set "10000058"
207:     Image("imButAcct2").Click 'Click GO
208:     'Open IA and test links
209:     Wait(1)
210:     If Link("All Images").Exist(1) Then
211:         .Link("All Images").Click
212:     End If
213: End With
214:
215: 'Browser("Wisdom").Page("WisdomLogin").Link("All Images
216:
217: End Function
218:
219:
220: Public Function All_ImageAccessReports ()
221:
222: 'Call BasicAtesting
223: Call ALL_IMAGED_CLIENT_DOCUMENTS ()
224:
225: 'Call ActivityReportbyReportID () - NEEDS REPAIR
226: 'Add more report test here
227:

Next page->

I get the message box:

This message box only appears 50% of the time. Either, I need to find a way to fix the Click, or, how can I automate to press the Skip button on the dialog box?

Any thoughts
